CRUISE NORTH®

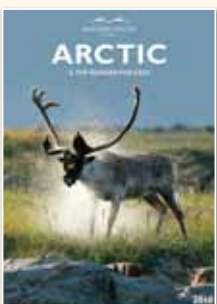

EXPEDITIONS INC.

Cruise the starkly beautiful landscapes of the Arctic, where the icy seas and desolate tundra are home to a surprisingly diverse population of plant and animal life. You'll find thriving species such as arctic hare, ptarmigan and muskoxen happily feeding on the abundant berries, heather and moss. This frozen land is also the historical home of around 200,000 Inuit, whose rich cultures and traditions are still found in settlements scattered across the north. Summer is the only time to visit, and the long daylight hours allow plenty of time for exploring.

Proudly owned by Canadian Inuit, Cruise North offers visitors an insightful journey into this seldom-visited region. Every cruise is designed to maximize time spent ashore visiting Inuit villages, viewing bird and animal colonies, discovering archaeological sites, or soaking up spectacular vistas. All the cruises offer an authentic and personalised experience of the Arctic, with a maximum of 122 passengers on board your ship, and expert Inuit and Canadian guides to accompany you on shore excursions.

Cruise North tours are featured on the opposite page.

ARCTIC E-BROCHURE

This is a small sample of our programs in the Arctic region. View our full range of Arctic cruises including the Canadian Arctic, European Arctic and the Russian Far East online in our Arctic e-brochure: [www.nfs.travel/arctic](http://www.nfs.travel/arctic)

LYUBOV ORLOVA

Built in Yugoslavia in 1976, the Lyubov Orlova underwent extensive refurbishment in 2006. Today, this spacious ice-strengthened vessel carries up to 122 passengers and all her comfortable cabins feature 2 beds, private ensuite facilities and an external window. The Lyubov Orlova also has a restaurant, well-stocked bar, lecture theatre and a fleet of Zodiacs for shore landings.

**SPIRIT MOUNTAINS**

Travelling from St John's, the bustling capital of Newfoundland, along uncharted channels to Kuujuaq, this 12-day journey reveals ancient archaeological sites, awe-inspiring scenery and many wildlife species. Trip highlights include L'Anse aux Meadows, where Norse ruins were discovered, Nain, the northernmost Inuit settlement in Labrador and Killiniq, an abandoned Moravian settlement now inhabited by polar bears.

**ARCTIC SAFARI**

Join this quest to meet the Arctic's Big 5 – walrus, caribou, muskoxen, whales, and the great white polar bear. This expedition visits communities steeped in history and culture – including Cape Dorset, the Inuit art capital of the world. With blooming tundra flowers and usually calm, warm weather, this trip is the best way to experience the Arctic for the first time.

**BAFFIN AND GREENLAND ADVENTURE**

Visit some of the world's largest and most active glaciers, along with National Parks and wildlife refuges across this remote and exotic landscape. Explore Baffin Island's unforgettable Auyuittuq National Park, and cross the Davis Strait to Greenland's Iceworld. Here you will have an opportunity to visit Greenland's colourful and remote communities.

**HIGH ARCTIC**

Venture northward past the Arctic Circle, exploring the length of Baffin Island to the fabled Northwest Passage. The scenery is breathtaking, with towering mountains, fjords and glaciers. Weather and wildlife encounters are unpredictable, but sightings of polar bears, walrus and bowhead whales are not unusual. This cruise is your best chance to view the amazing Aurora Borealis.

**NORTHWEST PASSAGE**

This adventurous 9-day trip takes you into true polar desert, where you'll discover icebergs and glaciers. Highlights include Victory Point, where evidence of the doomed crew of the Franklin Expedition (1845-47) was found, and Prince Leopold Island, prime breeding ground of murres, northern fulmars and black-legged kittiwakes.
